

Project Architect

Architects West is seeking a full time *Project Architect* to fill a key role in our office. The candidate must have a passion for design and thorough knowledge of the entire construction process, including materials, construction methods, and codes. The ability to manage the design process within budget, per program requirements, is of utmost importance. Experience in the preparation of architectural construction documents; and construction administration through post-occupancy review will be required including site visits, progress meetings, and shop drawings. The candidate must have good people skills to work with clients and oversee consultant coordination.

Applicants shall possess strong technical, organizational, and communication skills; strong computer aptitude and thorough knowledge of AutoCAD, Revit, and proficiency in Microsoft Office programs.

The ideal candidate will meet the minimum requirements of: Bachelor's Degree in Architecture or equivalent; 5-10 years of experience in all phases of architectural practice; and architectural license.

We offer competitive salaries based upon experience and a full benefits package including health/dental/vision and 401K plan.

Please send resumes to Administrative Secretary, Architects West, Inc., 210 E. Lakeside Ave., Coeur d'Alene, ID 83814; or e-mail to: kimh@architectswest.com with "Resume" on the subject line. Architects West is an equal opportunity employer.
